

The Fund will invest globally, primarily in equity securities of companies which activities are oriented towards the products and services related to the bringing up and care of children (from eco-friendly baby food to toys, clothing and entertainment). The return, which is expected to be realized in the management of the Fund's assets is formed mainly by revenues from price differences in the purchase and sale of securities, from the dividends received and to a lesser extent from interest income.

Medical Equipment	2.15%
Internet Retail	1.70%
Hotels and leisure	1.69%
Receivables	1.59%
Personal products	1.23%
Specialty retail	0.87%

#### COMMENTARY

After a weak start of the month, stocks gained momentum and many indexes in the developed world reached new all time highs in October. US equities were supported by robust Q3 earnings. The fixed income market was driven mainly by data showing persistent supply chain bottlenecks on a global scale and the high oil prices, which create doubts about the central banker's statements that inflation will be temporary.

The leading world indexes finished the month mostly in the green – Dow Jones and S&P 500 rose by -5.84% and 6.91%, respectively. In Europe, the German benchmark DAX also rose by 2.81%, while the British one – FTSE 100 rose by 2.13%. In Asia, the indexes finished the month mixed. NIKKEI was in the red and fell by -1.90%, while Hang Seng rose by 3.26%. The Bulgarian benchmark Sofix fell by -0.24%.

News of the month: According to NSI data in October 2021 r. the overall business climate indicator dropped by 2.3 percentage points compared to the previous month. The consumer price index for September 2021 compared to August 2021, measuring monthly inflation is 0.4%. The annual inflation for September 2021 compared to September 2020 is 4.8%. Seasonally adjusted GDP data according to express estimates show a growth of 9.6% during the second quarter of 2021 compared to the corresponding quarter of 2020.

- The Fund has (includes) global investment focus

- The Fund has corresponding degree of risk (dark green color characterizes most conservative funds, and red the highest risk funds)
