Google Pay

How to use Google Pay?

How to use Google Pay?

- o You can use Google Pay at any place, where contactless payments are accepted.
- o In order to effect contactless payments at commercial sites, your device must support NFC functionality, which must be switched on.

Register your card in Google Pay now and take advantage of the new opportunities for quick, easy and secure payments with your Android device!

Detailed information about activating the Google Pay service is available at
<https://support.google.com/>
